# LERVAD

## 2026

### When you want it right, you must choose right!

Lervad is synonymous with quality furniture and accessory for the creative and practical teaching of Design & Technology in schools, colleges and other educational institutions.

Our palette of benches and tables includes flexible technology benches, flush top benches, work tables and age-fitted work centres. Our roller shutter cabinets are space saving and are used for general storage or as functionally fitted tool cabinets.

Everything is highest quality and design - functional and visual.

It is our obligation to be at the forefront of the development in demands and wishes among the users. Thus, our catalogue is a static picture of our program of standard solutions only. Please note that our product palette and specifications change over time.

If you do not find what you are looking for when browsing the catalogue, we still like to help you. We also offer solutions to customer specifications. Feel free to contact us for further information.

We trust you will enjoy yourself.

## LERVAD

Lervad (U.K.) Ltd.

www.lervad.com

### Who we are!

For more than 100 years Lervad has provided furniture and fixtures to workshops designed for the vocational training.

Today's product program is the result of development over decades. Experiences and ideas from the millions of users over the years have found way into careful adjustments of the various solutions offered. A process of continuous modernizing keeping good practise in focus.

Today Lervad workshop furniture is manufactured by Jyndbjerg Møbelsnedkeri ApS.

Jyndbjerg Møbelsnedkeri stands for sustainable manufacturing and is a leading supplier of high quality furniture to several companies within the furniture industry.

## Prices and delivery

### Prices

All prices are exclusive of VAT.

Delivery is free to all UK mainland addresses for orders with a value above £ 3,000 excl. VAT. For orders with a value below £ 3,000 excl. VAT a handling and delivery charge applies as follows:

Order value up to	£ 500	£ 1,000	£ 2,000	£3,000
Charge	£ 90	£ 140	£ 250	£ 300

### Price validity

Our listed prices are without obligation. For actual valid prices please check our website or call our office.

### Time of delivery

The time of delivery will be informed on receipt of order. Normally delivery takes place within 4-5 weeks from receipt of formal order.

### Packing

Technology benches, workbenches and work tables are packed disassembled in pallet containers and boxes together with assembly instruction. Cabinets are packed fully assembled.

Pallets are invoiced at cost price.

### Delivery

Deliveries are made by trucks with tail lift.

All packing materials are included in the prices, however, assembly and placing in the rooms are not included.

### Payment

Terms of payment are net within 15 days from date of invoice subject to credit approval.

## Single technology bench

Lervad technology bench is for workshops with the highest functionality in focus. The bench has integrated tool well, woodwork vices and 2 rows for bench dogs.

**Single technology bench** is available in two different sizes, 80 cm or 132 cm long.

For frequent height adjustment the bench is available with an adjustable frame. And for wheel chair users the bench with an additional tilt functions is ideal.

## 4-Place technology bench

**4-Place technology bench** is a compact solution with 4 work places around a square top of 120 x 120 cm. In the centre a common tool well is integrated.

The base may have an integrated cupboard giving extra space for storage.

Or you may choose a height-adjustable version. Alternatively, Lervad 60 mm height converter may be fitted to the frame.

## Group technology bench

**Group technology bench** has all the same features as single technology bench.

Organizing more benches in a group saves space and adds to the versatility of each bench.

Height adjustable benches and benches for special needs may be fully integrated.

# Technology bench

## Multi-functional workspace

### Easy conversion for different tasks

With protective covers and mechanics vices on a vice holders the workshop is ready for metal work.

For ordinary desk work flush tops are applied on to the bench.

When not in use flush tops and protective covers are conveniently accommodated on a purpose designed trolley.

### Additional storage

On 4-Place technology bench storage is provided by integrating a shelf to the frame.

And even more storage space by choosing an integrated cupboard. It has two sections with access from opposing sides both equipped with a quality lock.

### Ergonomics and flexibility

Correct working position is best achieved when choosing a height adjustable bench.

For special needs students the angle- and height adjustable bench is preferred. Choosing this the student gets same working options as regular students.

## Planning with group technology bench

The group technology benches are placed in one or more groups and may include short and long benches as well as a mix of right- and left-handed.

Adjustable benches could be integrated in a group, too.

In single-sided groups the tool well should be fixed to a wall or provided with supporting legs.

Group benches are multifunctional. Designed for woodwork and with accessories for both metal work and flush top work.

## Dimensions of typical groups

4 places

L/W: 1500 x 1850

6 places

L/W: 2500 x 1850

8 places

L/W: 3500 x 1850

10 places

## Square flush top workbench

Lervad flush top workbench has a 40 mm solid beech top. The bench, with 2 or 4 places, is designed for multiple tasks with easy change from one operation to another.

**Square flush top workbench** has 4 working places around a 120 x 120 cm plain top or top with flip tool well.

The bench is available with open frame of solid beech, with shelf, integrated cupboard or height adjustable frame.

## Rectangular flush top workbench

The **rectangular workbench** has 2 or 4 working places around a 810 mm wide top. There is a choice between 3 different lengths 120, 150 and 180 cm.

The bench is available with open frame of solid beech, with shelf, integrated cupboard or height adjustable frame.

## Functional options

### Flexibility

Most benches are used as multi-function workbenches and Lervad's range of accessories shows its worth as portable or fixed features.

The woodwork vice has wooden jaws and for metalwork there is a choice between a small portable 75 mm mech. vice and a large fixed 100 mm mech. vice.

### Ergonomics

Flush top workbench is available with a height adjustable frame for free setting of the working height.

As alternative Lervad height converter fitted to the open gate frame may adjust the height by 60 mm.

For easy moving you may choose to mount Jockey-wheels at the one end gate.

## Jewellers line bench

**Jewellers line bench** is modular and comes with 1 or 2 working places. Jewellers bench has a 30 mm worktop of solid beech. The circular profile at the front edge gives the user a perfect working position. At the centre of the profile an anvil and a grinding support are inserted as ideal working tools.

Jewellers line bench may be ordered bespoke with as many working places in line as you wish.

## 4 place jewellers bench

Lervad 4 place jewellers bench is square 120x120 cm with a working place at each side. The circular profile at the front edge gives the user a perfect working position.

The bench has a base frame of beech with plenty of leg room or a height adjustable steel frame.

## Take care of the valuables

To minimise loss of valuables your work place may be equipped with a canvas lap skin. The skin catches excess material and protects your clothing at the same time.

The skin - formed like an open bag - has metal eyes fixed to hooks underneath the top and a line for your waist.

Lervad Line bench meets the demand for benching along walls or in free standing groups neck to neck. The bench has a 30 mm thick bench top of solid beech.

Line bench comes in a short and a long version and is made for accommodating light machinery.

On castors the small bench is ideal as movable workbench.

Lervad craft table is a durable table for work with practically all types of materials. It has a top of 30 mm solid beech with a very solid base frame.

If you value good ergonomics, you should choose the height adjustable version. Alternatively using Lervad's 60 mm height converter you may choose between two working heights.

A set of Jockey-wheels on one end gate assures easy moving.

Safety and responsibility are key words when dealing with tools. When using Lervad portable tool rack all frequently used tools are directly accessible for each student. At the same time traffic in the workshop is reduced.

In combination with Lervad roller shutter cabinet the portable tool rack system makes surveillance and control a simple task.

## Built to specifications

Lervad portable tool rack has a finished interior prepared for standard tool set.

For customers with own tool set the racks may be built to user specifications.

Alternatively plain racks for own finishing are available.

## Functional cabinet siding

The sidings have three lines of holes used for building flexible interiors.

The holes are used for fixing shelves and in tool cupboards for the fixing of racks and back panels for the accommodation of tools.

Lervad roller shutter cabinet is the answer to the constantly demanding requirement for storage. Roller Shutters require less space and make the interior easy accessible.

For safety reason the roller shutter opens downwards. When turning the key the shutter coils up in the base self-braking bringing it to a gentle halt.

## Luxury in everyday use

A Lervad cabinet offers unsurpassed functionality.

Now it is also possible to choose internal drawers as part of the interior design. The drawers are fitted on drawer slides with soft-close.

## Quality for active use

Roller shutter cabinet LX-21 is designed for use in stressful environments.

The cabinet is made from beech plywood. The sidings, top and bottom are 21 mm. Shelves are 18 mm. As back you find an 8 mm beech- melamine plate. Assembled in robust design it is the assurance for yearlong use in workshops and other tough environments.

## Individual fitting

When used as tool cupboards the cabinet is provided with fitting precisely adapted to the set of tools to be accommodated, either that being one of Lervads standard tool sets or a user defined set of tools.

All cabinets have a high quality barrel-lock.

# Cabinet LX-21

## Roller shutter cabinet with shelves

### Flexibility in use

Cabinet LX-21 is a robust and perfect solution for general storage with the number of shelves your like, straight or sloped.

All shelves are moveable, of course.

## General sales and delivery terms

These general sales and delivery terms ("Delivery Terms") apply to all deliveries of products and/or services ("Products") from Lervad A/S ("Lervad") to any customer ("Buyer"). Delivery Terms shall be mutually binding on Lervad and Buyer, unless otherwise expressly agreed. Lervad is not bound by the terms set forth by the Buyer, which differs from Delivery Terms, unless such conditions agreed in writing between Lervad and Buyer. Lervad is not bound by the terms set forth by the Buyer, even if Lervad not have objected to such conditions.

### 1. Order Confirmation

Buyers offer to purchase is only accepted when the Buyer has received Lervad's written, including electronically, acceptance of the offer or Lervad within the acceptance period has received written, including electronically, compliant acceptance by Buyer on a sales offer from Lervad.

### 2. Delivery and transfer of risk

The Products are delivered ex works Nørre Aaby, Denmark. In the absence of information from the Buyer on transport, Lervad is entitled to ship Products to Buyer on one of Lervad chosen mode of transport. All resulting costs are to be borne by the Buyer and transport takes place at Buyer's risk. Ex works should be interpreted in accordance with the Incoterms in force at the time of the purchase agreement.

### 3. Delay

If Lervad does not deliver on time, Buyer may in writing demand delivery within a final, reasonable period. Should delivery not take place within this period, the Buyer is entitled to rescind the contract and claim damages for proven direct losses. Buyer cannot hold Lervad accountable for any additional losses as a result of the delay.

### 4. Prices

Prices for Products are exclusive of VAT and/or other charges. Lervad reserves the right to adjust prices for undelivered Products in case of currency fluctuations, price increases from suppliers, material price increases, changes in wages, government intervention or similar conditions.

### 5. Packing

Disposable packaging is included in the prices and will not be refunded if returned. Reusable packaging is not included in the price, but will be credited to Buyer upon immediate, free return in good condition in accordance with Lervad's instructions.

### 6. Payment Terms

Payment must be made within 15 days of the invoice date. Late payments are subject to a penalty interest of 2% per month.

### 7. Product Information

Any product information - whether it comes from Lervad or one of Lervad's business partners - including information on weight, dimensions, capacity or other technical data in the catalog description, prospectus, advertisement, etc., are to be considered as illustrative and is only binding to the extent, Lervad explicitly mention in promotions and/or order confirmation. Specific requirements from Buyer is binding only to the extent that they are confirmed in writing by Lervad.

### 8. Protected and confidential information

Any information that is not publicly available, including drawings and technical documents handed over by Lervad to Buyer ("Confidential Information") shall remain Lervad's property and must be treated as confidential by the Buyer. Confidential Information shall not without Lervad's written consent be copied, reproduced or transferred to third parties or used for purposes other than those intended by the transfer. Confidential Information shall be returned on demand.

### 9. Changes

Lervad reserves the right, without notice to make changes to its products, if this can be done without significantly changing the agreed technical specifications and without substantial modification of the Products form or function.

### 10. Free repair

Lervad undertake at its own discretion to repair or replace Products which after Lervad's examination proves to be defective at the time of delivery due to manufacturing, design or workmanship, provided that Buyer complain within 12 months from the date of delivery. In case of a complaint Buyer sends, subject to prior agreement with Lervad, product to Lervad accompanied by a delivery note specifying the alleged deficiency. Shipping and insurance is paid for by the Buyer. If Lervad's examination shows the product is not defective, the Product is returned to Buyer. Shipping and insurance is paid for by the Buyer. If Lervad identify deficiencies, Lervad sends the repaired Product or a replacement Product to the Buyer and take over the replaced parts or the defective Product. Lervad choose mode of transport and pays for freight and insurance. Buyer shall not be entitled to any additional services or damages from Lervad as a result of defective products.

### 11. Product Liability

Lervad is not responsible for any damage caused by a product on real estate or personal property that occurs while the product is in Buyer's possession.

### 12. Consequential damages/Indirect losses

Lervad is not liable to the Buyer for any consequential or indirect loss arising from or in relation to a contract governed by these Delivery Terms, including, but not limited to, production interruption, loss of profit, loss of goodwill or loss of data.

### 13. Complaints

Claims for defects, delays, product liability or other claims for compensation must be made in writing to Lervad without undue delay.

### 14. Intellectual Rights

Besides the Product itself the Buyer acquires no rights in the form of license, patent, copyright, trademark or other intellectual property right related to the Product.

### 15. Force majeure

Lervad is entitled to cancel the order or suspend delivery of Products, and is also free of responsibility for any missing, incomplete or late delivery, in whole or in part due to circumstances beyond Lervad's reasonable control options, such as riots, civil commotion, war, terrorism, fire, government regulations, strikes, lockouts, slow-down, lack of transportation, shortages, disease or delay in or failure of the supplies from the supplier, accidents in the production or testing, or lack of energy. All Buyer's rights will be suspended or lapse in such cases. Buyer may neither in case of cancellation or delayed delivery seek damages or make any other claims against Lervad.

### 16. Partial Invalidity

If one or more provisions of these Delivery Terms should be revoked, illegal or unenforceable, none of the remaining provisions validity, legality or feasibility will be affected or impaired thereof.

### 17. Disputes

Any disputes between the parties arising out of or related to a purchase agreement, which is regulated by these Delivery Terms shall be governed by Danish law. Any dispute which cannot be solved amicably shall be brought before the court by Lervad's jurisdiction.

-----

**NB! Sales and delivery terms may change over time. Please look up always valid terms on our web site [lervad.com](http://lervad.com).**
